Comments: (If possible, please reference section number and/or page number in document if applicable.)

1 I agree with Lill. Mayor Goodman re: concerns
of hazards in transporting nuclear waste on public
highways. He saw 3 accidents from his office window,
one was a jackknifed truck. There are numerous
laws in various states re: transport of hazardous
waste on vehicles. It seems ludicrous to ship
nuclear waste from Tennessee or eastern states to
Nevada. One state should not have to bear
the burden of seepage of waste in to ground
water, earthquakes, etc. Personally I have not
seen any technical data regarding the
possibility of seepage in to the ground water.
I think about 3000 a.s. I have 12 grandchildren
6 of whom live in Las Vegas. There must be a
better way to dispose of spent fuel to
Yours, Marie

Please note: For your comment(s) to be considered in the Final Environmental Impact Statement, your comment(s) need to be received by the Department of Energy by February 9, 2000. To the extent practicable the Department will consider comments received after February 9.

Please feel free to attach additional pages; more postage may be needed. If you prefer to mail your comments, you may use the back side of this sheet as a postage-paid, self-mailer. To do so, fold in thirds along the dotted line so address and postage-paid notice are visible; then secure with tape.
